

Don't wait until Grade 12 to start planning for college.

A long-term college planning platform for parents of Grade 8 to 11 students, starting in Qatar and the GCC.

The problem

Parents start late and don't know what to do next.

“

"I don't really know which colleges or majors suit my child."

“

"There are too many factors: academics, location, cost, distance."

“

"I don't know what we should be doing now versus later."

“

"I'm worried we'll start too late or miss something important."

The gap

Today's options are either generic or expensive.

Free and generic

ChatGPT, college search tools. Fast answers, no plan. Parents must know what to ask.

AdmitProfile

Structured, personal planning from Grade 8, at an affordable annual price.

Premium counselling

Deep and personal, but packages priced out of reach for many parents.

The product

A living profile of the child that answers five questions.

1

Where are we?

The child's current
profile

Profiler

2

Where could we go?

Careers, majors and
the universities that fit

Career map

3

What's missing?

Gaps, while there is still
time to close them

Profiler

4

What do we do next?

A grade-by-grade plan
and the next 90 days

Milestones

5

How are we progressing?

Profile development
over time

Milestones

AI-native

An AI agent that learns each child and acts on it.

1

Listens

Parent chats, assessments, grades and activities

2

Updates the profile

Strengths, interests and gaps, refreshed every time

3

Plans and nudges

Re-plans milestones and sends the next actions

4

Learns

Tracks what gets done and adjusts the path

AI agent

Planning for Omar

Omar has started coding at school and loves it.

Nice. That fits his robotics interest. I've updated his profile and added a computer science path.

For parents

Parents get four simple screens and WhatsApp updates.

Omar

64%

Profiler

Who the child is, and a profile score that grows

Engineering 91%

Robotics engineer

Comp. science 78%

Career map

Careers branch to majors and fitting universities

☒ Start a project

☒ Join a club

☐ Summer program

Milestones

A Grade 9 to 12 checklist and the next 90 days

Robotics challenge closes in 2 weeks.

On it, thanks!

Nudges

Monthly focus and reminders on WhatsApp or email

For agencies

Agencies run it under their own brand.

- 01 White-label: their logo, colours and domain
- 02 The free planner brings in parents from Grade 8 and 9
- 03 Admin shows engagement and who is ready to talk
- 04 Agencies set their own plans and session packs

Illustrative figures

Why agencies join

Starting in Grade 9 turns one sale into four years of revenue.

2.7x revenue per parent. Illustrative figures.

Plans

Parents pay annually, direct or through an agency.

Free \$0 Child profile and basic exploration	Profile \$99/yr Full profile, fit analysis and pathways	Plan \$199/yr Roadmap, milestones, progress, nudges, opportunities	Plan + Expert \$399+/yr Adds human profile reviews and sessions via partners
--	---	--	--

Parent plans

Paid directly by parents

Agency licences

White-label platform fee per agency

Partner programs

SAT prep, summer programs, counsellors

Where we start

Qatar first, then the GCC, then the world.

Qatar

Many IB, British and American schools, strong US interest

GCC

UAE, Saudi Arabia, Kuwait, Bahrain, Oman

International

Any parent outside the US planning for US universities

How it's different

Others serve schools or application season. We serve parents from Grade 8.

Type	Examples	Where they fall short for parents
School platforms	BridgeU, Cialfo	Sold to schools; the parent is a viewer
Premium counselling	Crimson, CollegeAdvisor	Expensive, out of reach for many
College search	CollegeVine, Niche	Built for application time, US-focused
General AI	ChatGPT, Gemini	No structured profile or plan
Local agencies	Regional consultancies	Uneven tools; we become their platform

Roadmap

The planning core comes first, partners next.

Now

- Profile, career map, milestones
- WhatsApp nudges
- First agency partner in Qatar

Next

- White-label for more GCC agencies
- Opportunity matching with partners
- Arabic support for parents

Later

- School version with a parent layer
- International parents

admitprofile

Know where your child can go, and what to do next.
